The Azonix Triton SA is a versatile and reliable workstation solution that offers a unique industrial alternative. This state-of-the-art, rugged system features either desktop mounting or space-saving mounting capability – allowing the system to be mounted virtually anywhere and freeing up valuable work space. The 15-inch flat panel display is equipped with a glass-on-glass resistive touch-screen, anti-glare protection, full sunlight-viewable capability and exceptional image quality.

Flexible by design, the Triton SA integrates an Intel® 1.8GHz Pentium® M processor that provides the computing performance you demand. The Triton SA eases the expansion of the system by providing additional input and output connectivity – creating a solution that truly fits your unique needs. The Triton SA enclosure is constructed of high-strength aluminum making it light-weight and durable. The front panel is NEMA 4-rated, guarding against solid foreign objects, such as falling dirt, windblown dust, water and ice.

The Azonix Triton SA is ideally suited for industrial applications, providing astounding flexibility, superior reliability and efficient design making the Triton SA workstations the ideal operator interface solution.
